~~CONFIDENTIAL~~

Place : Weyburn Hall Cafeteria (off-campus) UCLA
947 Tiverton Ave. L.A.

SPEAKER: PENN JONES

Attendance: Approx. 450 - majority were college students - very few older adults.

Persons identified present: MIKE FARRELL
MIKE RAVEN
JERRY LUCAS

The theme of the speaker, PENN JONES, was "THE MYSTERY REVOLVING AROUND THE DEATH OF UPWARD OF 60" - one report was that 96 people had been killed or gotten out of the way after President Kennedy was assassinated. He talked for about 45 minutes.

Other speakers were STEVE JAFFEE, Assistant to Jim Garrison of New Orleans. He talked about 20 minutes and gave a chronological order of the events surrounding Jim Garrison's investigation, and told of some of the problems he had come into.

ROGER CRAIG, former Deputy Sheriff from Dallas, spoke for about half an hour on the events surrounding the assassination and the facts that were covered up - the confusion directly after the assassination, and his bitterness with the police force there. He was asked to leave the force shortly after the assassination, and he was called the only living witness willing to talk.

STEVE BURTON gave a little bit about some of the events - more ideological - about the assassination and what he thought should be done about it. He referred to himself as a political science major at UCLA.

PENN JONES mentioned that he had two books out, both of which could be purchased at the Free Press Book Store or the Dialogue Book Store in the Valley. Both of these books were on sale at the meeting and were sold out shortly after the meeting was over.

Following Penn Jones, they had a question and answer period which was pretty much dominated by five or six people - mostly males. Following this, they broke for about 10 minutes and said that any one who wished could come back after that - they would stay for half an hour and answer questions..

~~CONFIDENTIAL~~

[redacted] The attorney representing Mr. Bradley was at this meeting and it was actually mentioned by the people that he was in the audience. It was also mentioned that he was taping the meeting and that is why JAFFEE said he would have to watch what he said.

Following the recess, about 125 people came back and joined those who had stayed. When source came back into the room there were little clusters of people gathered together. Quite a large group was at the front where the speakers were and there were about 20 people gathered around Bradley's attorney, wanting to know his views on the investigation.

Little bits of conversation were overheard - mostly the people were just trying to find out exactly what these people were after. While source was waiting in line before the meeting started, he picked up the name of a woman who seemed to know quite a few important people. Her name was LALYNN (ph); she was heavysot, short, about 50 years old, with gray hair, and she knew enough important people to be called out of line and given a seat in the room before anyone else was allowed in. She was a friend of JAFFEE.

Quite a few of the people at this meeting were seen by source at the meeting the previous night. They were right up in front.

No literature was passed out.

The following statements were made by the persons indicated.

- BOUTELLE - White and black people should united and organize through Marxism. Then the revolution should begin. The MLF and Cubans were all organized. If you don't organize the blacks will be slaughtered.
- ROBERTS - The white radicals Jewish girls come down to Watts to get screwed by the black men, not to help them. When the revolution comes this summer the white men better come down to help with guns or not come at all. She made an attack against Lisa Williams of the Free Press.
- GREENWOOD - If you want to come down to Watts with a Marx book in hand, you better come down with a gun in the other hand, or they will shoot you the same as they would shoot down the police. Don't come unless you are willing to bring your gun and fight in the revolution. He asked a question of the audience, "when the fighting is going on this summer how many of you will come down and help us?" One person raised their hand.
- WRIGHT - We are going to need help from the whites. In reply to a question from the audience; What can we do to help? She stated, "when we are meeting the police on the front, you can come from their flanks and from their rear. We will knock out the police stations and kill the facists cops."
- JACQUETTE - The white radicals have promised us guns and ammunition but haven't come through. We've got alot of guns and ammunition but we can always use more. The guns and ammunition can be donated through me

or my associated.

We ask each community to work out its own plan for the ten day period and notify us of the plans. The symbols and machinery of war, violence and oppression are all around us draft boards, napalm plants, airplane and armament factories military installations, repressive police departments, etc. While these are all appropriate targets for demonstrations, only the people and groups in your community can determine what actions will be productive in your area.

THERE IS NO SHIRKING THE NEED TO ACT NOW!!!

President Kennedy's brains were blown out in Dallas, Texas. The killers are still loose and in high places. These killers can kill you and get away with it. They can kill you.

Jim Garrison is your last chance to defend yourself. If the killers can defeat Jim Garrison, then you are defeated and the killers will have permanent control of you and your country. The only way to defend yourself is to form a political committee (three or more people) to support Jim Garrison. Pressure Reagan to extradite. Lean on your congressmen to reopen the investigation. Stop buying Time and Life magazines until they release the Zapruder film of the killing. Tell the federal about it. Don't trust the cop outs. Tell the federal about Bobby, John was your

On April 13, 1971, the following members of the Urban Guerrilla Group traveled to Slidell, Louisiana, to practice with firearms:

b6
b7C

[redacted] (LNU), [redacted] who is from [redacted] and who is living at [redacted] has been in New Orleans for approximately [redacted] is a [redacted] [redacted] age [redacted]; height, [redacted] build, [redacted] hair [redacted] weight. approximately [redacted] lbs.
[redacted]

(U) The above went to an abandoned area just south of Slidell, off the Interstate 10 Expressway. The area is located just beyond the Gulf Oil sign, as one drives from New Orleans into Slidell on I 10. To reach the firearms range, take the first right after the Gulf Oil sign and drive approximately ^{4 to 5} 4 1/2 minutes until one reaches the area. The area is used by others to practice firearms.

The group practiced for approximately an hour and a half. The group used a .22 caliber revolver pistol. They also used two .22 caliber rifles. These rifles were observed to have scopes on them. The rifles are of the Remington brand. Following the target practice, the group returned to New Orleans and went to 1024 Jackson,

~~CONFIDENTIAL~~

which is the headquarters for the Urban Guerrilla Group. There those who practiced with the weapons were joined by [REDACTED] The group then held an informal meeting.

~~CONFIDENTIAL~~

[REDACTED] informed the group that the headquarters for the guns of the group has been changed from the second to the third floor at 1024 Jackson. The guns are now maintained, she explained, in her personal apartment. ^{were} Eight different handguns ^{are maintained} and observed at 1024 Jackson. These include .22 caliber pistols and .45 and 38 caliber pistols. Included in the arms stored are three caliber .22 pistols. ^{Also} Included in the arms stored are three .22 caliber rifles, one shotgun with unknown gauge, one M-1 rifle, and two weapons referred to by [REDACTED] as "riot guns." [REDACTED] also explained that the group possesses an adequate supply of cleaning equipment for the weapons. [REDACTED] also indicated that the group possesses one item of equipment used to reload .38 caliber shells. This item of equipment was observed in her apartment.

b6
b7C

[REDACTED] also stated that the following individuals are carrying handguns on their persons at all times: [REDACTED]

b6
b7C

[REDACTED] indicated that she carries a handgun on her person and keeps one in her automobile. She also indicated that [REDACTED] carries a handgun with her also.

b6
b7C

[REDACTED] explained the above may not necessarily carry the

~~CONFIDENTIAL~~

handguns, with them at all times but if they will be away from 1024 Jackson for any length of time, they will maintain the handgun on their person. In addition, she explained that at anytime they are driving in an automobile they will carry a handgun in the vehicle. She said they carry the weapons for the purpose of protecting themselves from the police.

[] then addressed her comments to [] and [] She noted that the two must make a decision regarding their residence. She noted that [] continues to live with [] at [] in New Orleans. She said that the two could move to 1024 Jackson if they so desired. She explained she wants to get [] away from [] and wants to get [] away from a friend of his, []

(U) She also explained that the two must make a decision regarding what type of handgun they desire to carry and that they then must obtain these weapons. [] indicated that it was not illegal to carry an unconcealed weapon, as long as it was not an automatic weapon. By "unconcealed," [] explained, one may leave the weapon in the glove compartment of their automobile. If they are stopped by the police, the driver should immediately lock the door and this would cause police to be forced to obtain a search warrant before they could examine the contents of the automobile.

[] also explained to the group the members must locate hiding places in the area to conceal either themselves or other individuals if *going underground* becomes necessary. [] stated

~~CONFIDENTIAL~~

the group should look for abandoned houses where it would be appropriate to leave medical supplies. In addition, ~~hiding~~ places should be arranged with close and trusted friends in the Movement. [] also stated that members of the group should discreetly comment to their close associates outside the Urban Guerrilla Group that the entire group may leave for California in the near future. She explained that, therefore, if the group actually does leave in a "minute's notice" no one else in the Movement will be alarmed.

b6
b7C

[] explained that the group, of course, will not leave for California and that the group has no plans to leave New Orleans. By spreading the word, however, that the group is going to California we may *hide* in the New Orleans area and none of our friends will wonder what happened to us. []

~~(X)~~

(U) [] indicated that [] and a member of the Urban group, who is an employee of the library at Delgado College, New Orleans, is in the process of attempting to locate hiding places for the group in the Cajun country in *southern* Louisiana. [] explained that in the event members of the Urban Guerrilla Group in New Orleans have to find a hiding place, we may be able to go into the rural part of the State.

b6
b7C

[] explained that members of the group may *decide* to commit an illegal act, such as the robbery of a bank or other store, and that the group will need a place to hide out.

b6
b7C

[] *commented* that the group wants to do everything they can to fight the military and industrial complex in the U.S., strengthen itself, and serve the people. They feel that possibly in the future

b6
b7C

~~CONFIDENTIAL~~

they may commit a bank robbery or any other illegal act to achieve the above objective.

All the members of the group ^{expressed} ~~CONFIDENTIAL~~ agreement regarding the general objective of committing an illegal act at some time in the future.

[] was then overheard to say that the group need not worry regarding any comments they made, for the house was not "bugged."

[] also mentioned that she and [] (LNU) are members of the ~~several~~ Shooting Clubs or Shooting Ranges in the New Orleans area. She indicated that she registered with her true name with these clubs.

Regarding illegal acts, both [] mentioned that one possibility for the group would be an assassination. They both indicated an excellent prospect would be the author of the recent book, "The Southern Stages of Economic Growth." The author is a professor of economics at the University of Texas at Austin, Texas.

(U) ~~This person has also served on Government economic boards. The two explained that the book sets forth a rationalization for American imperialism and capitalism that the author of the book would be a good subject to assassinate, For his assassination, they said, would be a extremely symbolic.~~ [] also commented that this professor has a CIA contract and that he were assassinated it would frighten all the other professors all the other professors with CIA contracts in the country.

It should be emphasized that the above was discussed in terms of a possible group activity and no specific plan was formulated to actually put into effect the assassination.

~~CONFIDENTIAL~~

b6
b7C

~~CONFIDENTIAL~~

[] indicated that she in the recent past has spent several hundred dollars on firearms. [] explained that she purchased guns at a local gun store in New Orleans. She explained that the proprietor would always sell guns to conservatives and members of the right wing organizations. The only way that she can obtain the weapons, she explained, is to convey the impression that she is a merely a housewife and has some connections with *too conservative* light organization. She also indicated that whenever she can attend a *gun fair* in the surrounding area she will do so and attempt to purchase weapons through them. She indicated that she purchases most of her weapons at a gun shop in either Slidell or Covington,

(U) Louisiana.

b6
b7C
[] explained that she has developed extremely good contacts with the proprietor of the ^{above} gun shop and that he now looks upon her as an extremely good customer.

b6
b7C
[] also indicated that she has purchased a number of weapons from the gun stores in the French Quarter section of New Orleans.

b6
b7C
[] also said that the group must obtain substantial supplies (medical supplies), and she pointed out many of the items are supplies that the ordinary person cannot purchase, such as hypodermic needles, *and*, vaccines. She indicated that one possible site for medical supplies ^{abandoned} is at an/ factory on Bernard Avenue.

in St. Bernard Parish. She explained that if a member of the group is injured that person can go to *the factory* and treat himself.

~~CONFIDENTIAL~~

b6
b7C

in the very near future members of the group will be handled. She also stated ~~CONFIDENTIAL~~ medical treatments for each other and that members of the group must determine their blood types in the future to secure blood. [] stated the place was probably "bugged" and ^{someone} was probably listening to everything that was said. He said that none of the individuals present knew anything about ~~electronics~~ and that even though [] may have looked around the place for electronics eavesdropping devices she certainly could not be certain.

[] replied that it didn't matter. She explained that nobody would take the group seriously. In addition, *she said, the police* would react.

by saying that *members of the group* "should not be taken seriously". She also stated that individuals in the group did not discuss any specific plans, ~~plan~~ plan to put into effect in the immediate future while at 10741 104 Jackson.

[] stated that the above may be true; however, there are few groups who will discuss Urban Guerrilla warfare. [] further stated that as a result, the authorities would most probably watch this group more closely than they would watch a group merely discussing ideology. [] replied by saying there was simply no way for the authorities to effectively "watch us." She said they could observe the group train, listen to our meetings at 1034 Jackson, but she said that as long as the ^{police} do not have an informer in the group there is no way ~~when~~ they can know when we plan a particular act. She stated that when we make a decision to commit a particular illegal act, we can then go underground.

[redacted] in her opinion, is a fool. She indicated ~~he~~ ^{she} does not believe in violence and is counter-revolutionary. In her opinion, [redacted] is pursuing the wrong road to a *revolution*. She indicated that she has "...feeling of affiliation in terms of ideology..." with the individuals who have broken away from [redacted] and are pursuing the goal of armed revolt now against the State. She indicated that these people are the ones who are really carrying the revolutionary burden and the struggle in the country at this time. [redacted] ^{also} indicated that it would be futile and meaningless to begin a Revolutionary Union chapter in New Orleans. She explained that by working *with* the Revolutionary guerrilla ^{group} in New Orleans, *with* which she is presently affiliated, *this* Urban Guerrilla group can maintain contact with all such revolutionary guerrilla movements throughout the country. (U) She noted that the Urban Guerrilla Group in New Orleans, which believes ⁱⁿ armed struggle, can maintain loose contacts with the more militant faction in the Revolutionary Union and even with the Weathermen.

Regarding [redacted] stated that, in her opinion, [redacted] actually condones violence on the part of the revolutionaries in this country, ^{for} ^{he} has indirectly said in his book that the young revolutionaries should not get caught in their acts. [] then brought up the subject of the District Attorney in New Orleans, JIM GARRISON, who has written a book regarding his investigation of the KENNEDY assassination captioned, "A Heritage of Stone." Available at the meeting was an *autographed* copy of the book *directed* to one member of the Guerrilla Group, [] who works in the library at Delgado College. The book was given to [] during the Summer 1970 by GARRISON and on the front cover of the book he wrote the following statement:

"With grateful appreciation of her interest
and deep gratitude for her insight
and deep gratification for her understanding

(U) of what I'm trying to say in this book." (C)

[] said that she has been studying JIM GARRISON for approximately one year and she indicated that she "...knows how to program him." She explained that he is a very interesting man with a great deal of leadership ability but she stated the CIA and the entire Government is trying to stop him from proceeding with his work. [] indicated that she has carefully analyzed GARRISON himself and has carefully analyzed everything he has written in his book. [] indicated that, in her opinion, he has great potential to be used for the revolutionary movement in this country. She indicated that as a major goal, she personally will attempt to widen the split between the District Attorney's office in New Orleans and the New Orleans Police Department. She indicated that she considers the above to be part of her work as the *primary* strategist for the Urban Guerrilla Group in *New Orleans*.

[] also discussed the Revolutionary Union, which is headquartered in San Francisco. She noted that the organization has split into two factions and that the former leader of the Group,

Regarding the local New Orleans Police Department, [] stated that it is obvious that they have an extremely low morale and, in her opinion, the Urban Guerrilla Group would not have to fear the New Orleans Police Department nor the FBI. She explained that revolutionaries will risk their lives to bring about their goals but that the members of the law enforcement agencies will withdraw from a *difficult* situation rather than risk their lives.

[] indicated in her opinion the right wing groups are not a threat either for, she stated, most of them have disbanded.

(U) [] stated that members of the Urban Guerrilla ^{Group} must learn the warehouses in the Port of New Orleans very well. Specifically, members must break into warehouses to determine where ammunition and weapons are maintained. (C)

The above was described in terms not of the present activity but rather of some possible future activity. She indicated that ^{as for now} members of the group *should* simply walk around the area and surveil the area but will not actually break into the warehouse. She noted, however, that most of the warehouses are open and individuals can simply walk in without causing suspicion.
